Free Event-Registration Required

Tickets may be reserved online beginning August 14 or by contacting the Omaha Public Library Foundation at foundation@omahalibrary.org or 402.444.4589. For more details visit omahalibraryfoundation.org.

Hope Jahren: Science's great communicator

In 2016, *TIME* Magazine called Hope Jahren "a rare breed of scientist who is both a leader in her field and a great writer." (April 21, 2016)

Jahren is a geochemist and geobiologist at the University of Oslo. Her work reaches audiences across the country and around the globe. Her research on plants has yielded more than 70 studies in academic journals. Jahren's work and 2016 memoir is a national platform to continue the conversation about women in science.

Visit jahrenlab.com and hopejahrensurecanwrite.com for more information about Jahren's research, work, and writing. Follow her @HopeJahren on Twitter.
