ACCELERATED TECH TRAINING FOR HIGH-DEMAND SKILLS

INTERFACE
THE WEB SCHOOL

"Interface really gets to the point and provides everything you need to learn new skills and go out there and get a new job.

Melissa Buffalohead
Interface Wordpress Grad

AIM Interface Web School offers students an immersive learning program led by industry experts and a professional network that connects students and businesses throughout the Midwest region.

INTERFACESCHOOL.COM

CONVERTING AND ATTRACTING TECH TALENT

Since its founding in January of 2014, Interface has provided over 230 graduates with the training they need to expand their skillsets and find rewarding careers in technology.

Interface has also introduced technology skills to over a thousand people from various backgrounds through free and low-cost workshops, in addition to our immersive learning program.

Interface is a part of AIM's mission to develop the tech talent pipeline in the Midwest, and is the capstone of AIM's youth, teen and adult pathway to IT careers and college attainment.

PROGRAM OVERVIEW

At Interface, there are five course formats for learning tech skills:

- **FREE WORKSHOPS:** Students can explore a variety of tech topics in our free 3-hour workshops. Offerings range from beginner-level web development to new and advanced languages and technologies.

- **INTRODUCTORY WORKSHOPS:** Two-day workshops provide an affordable and quick way to explore our multiple course tracks. The topics are ever-expanding and currently include web development, mobile development and data science.

- **FOUNDATIONS COURSES:** These courses lay the foundation for our advanced specialization courses in areas including web development, mobile development and data science.

- **SPECIALIZATION COURSES:** These courses are designed to prepare students for a career in various specializations including Java, WordPress, .NET, Android, iOS, data science, digital marketing, and more.

- **CUSTOM CORPORATE TRAINING:** These training opportunities vary in duration and topic depending on a company's needs. Interface staff and instructors work closely with partner organizations to develop curriculum, interview and select candidates, evaluate student performance, and provide graduate placement assistance for candidates who complete these programs

The AIM Institute is an innovative nonprofit that grows, connects, and inspires the tech talent community through career development and educational programs. Through these efforts we improve thousands of lives across the Silicon Prairie.

CONVERT YOUR CAREER PATH

INTERFACE
THE WEB SCHOOL

Join **AIM Interface School** for an intro course or training opportunity.

Do you have an interest in learning how to build websites? Do you have an interest in starting a career in tech? Look no further than Interface. During a FREE session or workshop with Interface, our team will guide you through building a website from the ground up.

12-HOUR INTRO CLASS

This 2 day (6 hours/day) weekend course provides an affordable and quick way to either test run a full Interface class, or get up to speed and set up for success before you start a Foundations Class. The topics are ever-expanding including Web Development, Java, Data Science, and more.

12-Hour Intro Class is not eligible for additional discounts.
